# A total bathroom solution

Since the launch of our first freestanding bath over 20 years ago, we have been constantly innovating. Our range has grown beyond bathtubs to include basins and more recently, solid timber furniture. Special external paint finishes have also proved popular additions. This year we introduce a whole new category of recessed and undermount basins, all crafted from our signature QUARRYCAST® material.

We believe that excellence in the bathroom matters, so from our largest bathtub right down to our smallest basin waste, everything is made by skilled craftspeople using the finest materials. Discover the range today and create your perfect bathroom with Victoria + Albert.

Amiata

# Elegance that has taken millions of years

At Victoria + Albert, we use a special white rock that we call Volcanic Limestone™. It is a key ingredient in every bath and basin we manufacture.

Starting life as a soft and chalky limestone, its creation is one of natural transformation after being exposed to huge elemental forces from liquid magma. Over millions of years, the high temperature and pressure results in incredibly hard, strong strands being formed. Once ground to a powder, we blend the Volcanic Limestone™ with high quality resins to form QUARRYCAST® - a world class composite that is rock solid, scratch resistant and exclusive to Victoria + Albert.

**With the peace of mind of a 25-year domestic guarantee,\* choosing Victoria + Albert is more than a purchase, it's an investment for life.**

\* Guarantee limited to white QUARRYCAST® products only; excluding exterior paint finish, waste kits & plating on feet. This does not affect your statutory rights.

Barcelona

# A new collaboration

We continually introduce fresh ideas to the Victoria + Albert range to keep us at the forefront of bathroom innovation. New for 2017, we announce the Eldon, designed by renowned British Architecture and Interior Design studio, Conran + Partners.

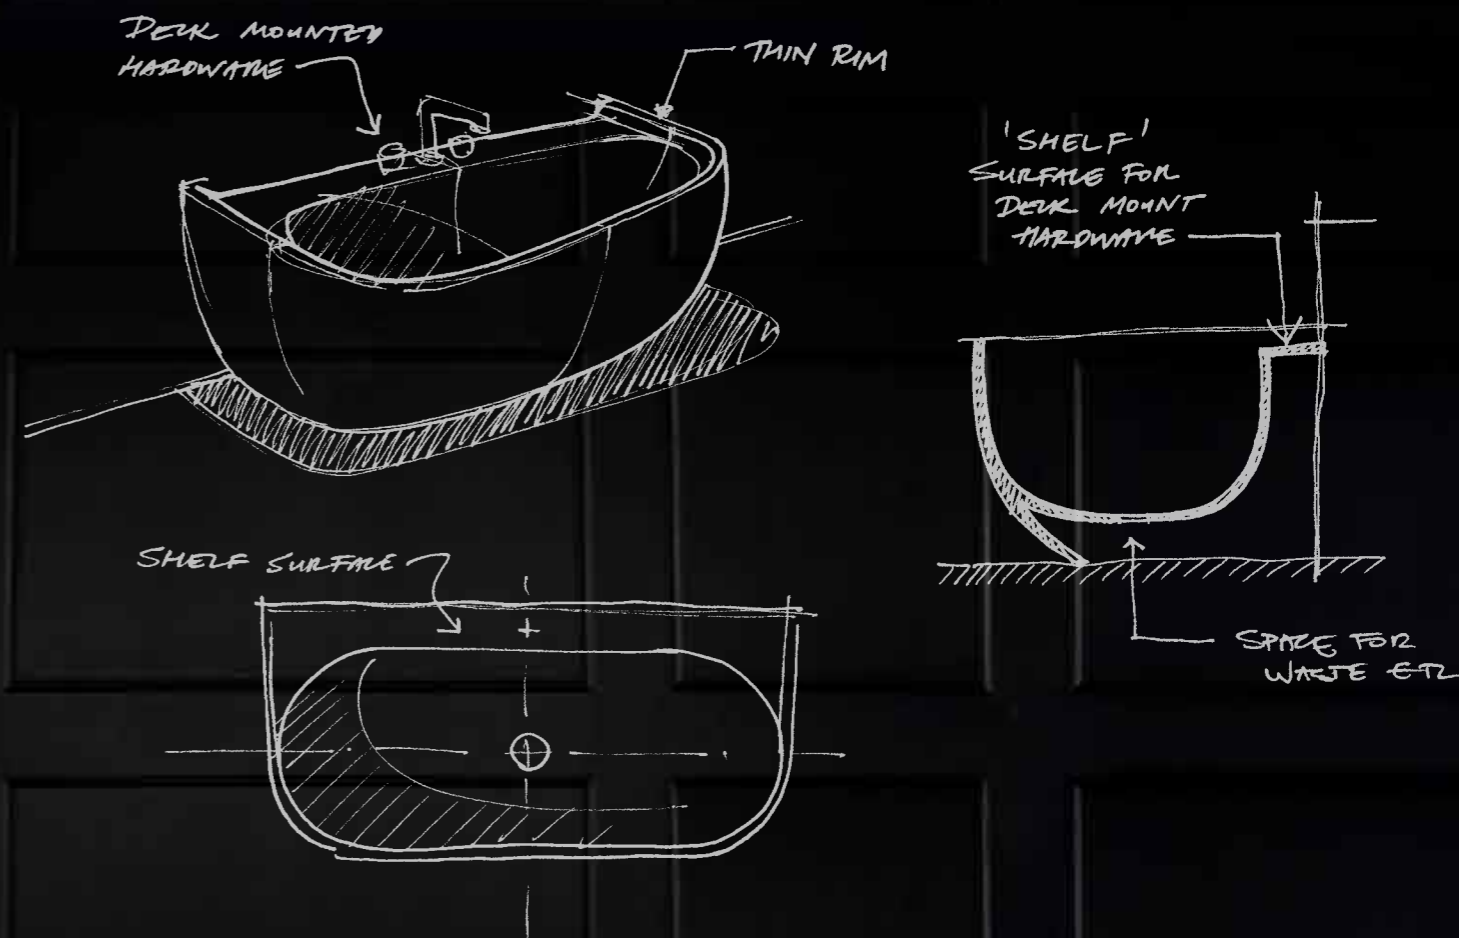

Eldon is a back-to-wall bath that has all the appeal of a freestanding bath. Conran + Partners have applied their expertise learned through designing some of the world's top hotels and residences. Eldon directly responds to the design challenges commonly found in home and hotel bathrooms alike, resulting in a bathtub that is both practical and beautiful. The perfect statement for a bathroom of any size. Find out more about the design inspiration on our website at [www.vandabaths.com](http://www.vandabaths.com)

"In designing Eldon we set out to address the pragmatic challenges of creating a contemporary bathroom space, while envisaging an atmosphere of indulgence normally associated with freestanding baths" Conran + Partners.

**CONRAN+  
PARTNERS**

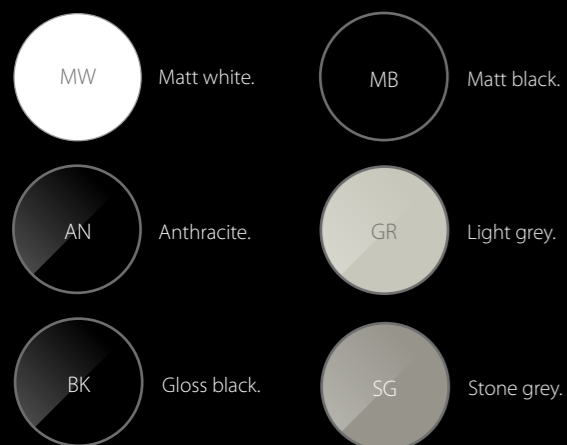

Eldon

An award-winning range of freestanding baths that caters for bathrooms of all styles and sizes. From compact soaking tubs to roomy rolltops, there's a shape and style to suit every bather. Our unique QUARRYCAST® composite has been a market leader for over twenty years.

Inspired by the city famous for its organic design, the Barcelona features opulent curves - perfect for those with a passion for luxury bathing. Complemented by the Barcelona 48, Barcelona 55 or Barcelona 64 basins (page 81-83). Available in seven colour finishes.

BAR-N-SW   
 BAR-N-xx   
 87Kg

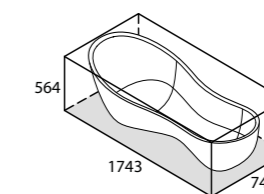

Photographer: Aysha Lawson

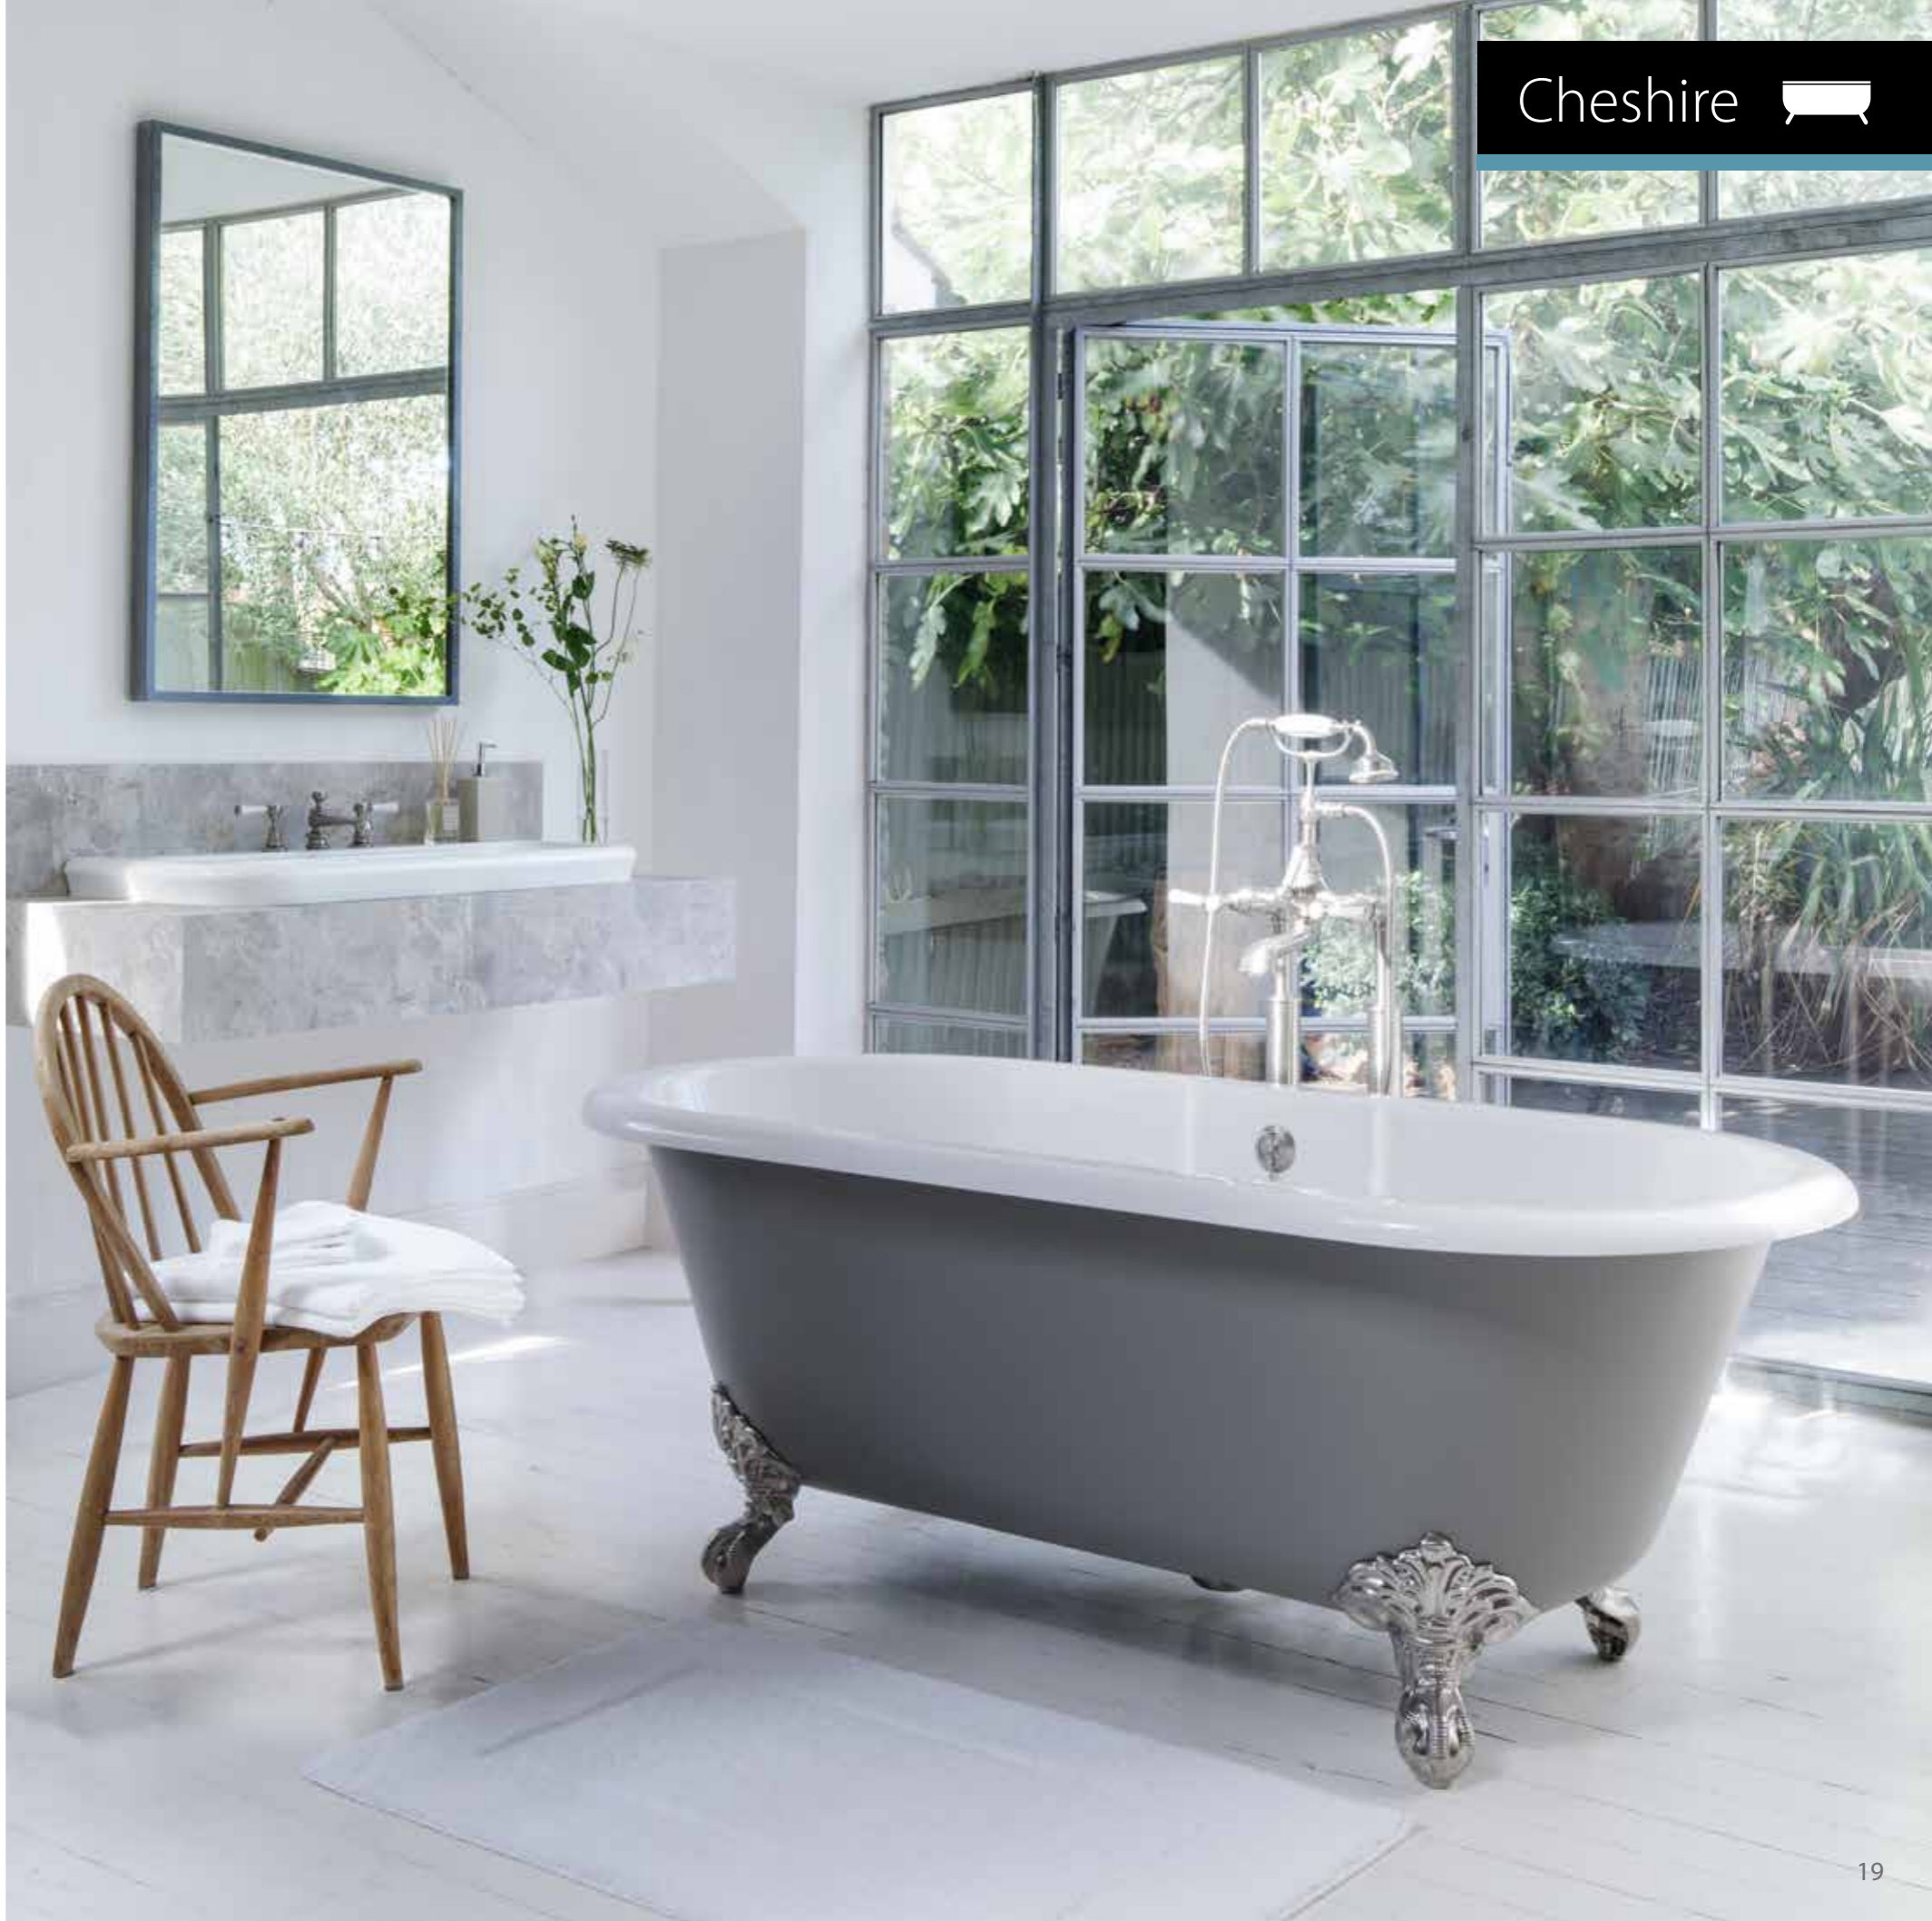

Victoria, Australia

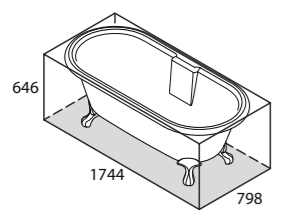

Contoured to fit the body, Cabrits offers enhanced support for bathers of all sizes and is complemented by a low profile vessel basin. Its special 'double dip' design makes the bath one of the most comfortable available and, with a maximum volume of just 176 litres, also one of the most water efficient in the Victoria + Albert collection. Complemented by the Cabrits 55 basin (page 84). Available in seven colour finishes.

CAB-N-SW   
CAB-N-xx

The timeless classic - a deep Victorian double-ended roll-top bath of generous proportions featuring a range of fabulous Ball & Claw feet options. Available in seven colour finishes. A range of metal foot finishes are available - see below.

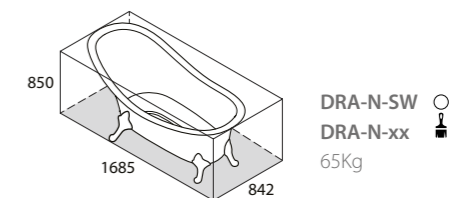

CHE-N-SW   
 CHE-N-xx   
 57Kg

**Qc** rich in Volcanic Limestone™

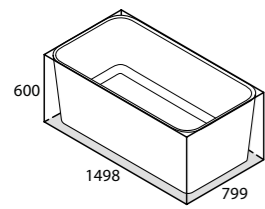

Taking its form from the original Victorian slipper bath with added modern day opulence, refinement and beautiful rim detailing, Drayton's generous size and shoulder support provides a sublime bathing experience. Complemented by the Drayton 40 basin (page 85). Available in seven colour finishes. A range of metal foot finishes are available - see below.

DRA-N-SW ○  
DRA-N-xx ■  
65Kg

Deep, double-ended luxury in a compact format. The Edge shares many of the qualities of the successful ios, with the addition of distinctive cubic styling. Complemented by the Edge 45 basin (page 86). Available in seven colour finishes.

EDG-N-SW   
EDG-N-xx   
85Kg

Eldon is the creation of leading British Architecture and Interior Design Studio, Conran + Partners, who have applied their expertise learned through designing some of the world's top hotels and residences.

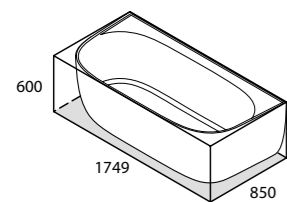

The contemporary back-to-wall bath is endowed with the curvaceous lines of a freestanding bath. A full width tap deck hides all waste pipework and a moulded upstand allows tiles to be easily installed.

At 1750mm long, it's the perfect bathtub for bathrooms large and small where clean lines and day to day practicality are equally important. Available in seven colour finishes.

# From Volcanic Limestone™ to QUARRYCAST® EN

## Quality

Volcanic Limestone™ is Victoria + Albert's name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma act upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Find a sample of Volcanic Limestone™ at your local Victoria + Albert dealership.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is QUARRYCAST® - a world class composite with an exceptional strength to weight ratio.

A stone rich unique alternative to both cast-iron and acrylic which produces a 100% hand finished, one piece product packed with desirable natural properties and backed by a 25 year guarantee for your peace of mind.

**QUARRYCAST® – the original freestanding bath composite and still the best. Ask to see and feel the difference at your local dealer.**

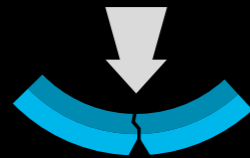

## Strength

At Victoria + Albert, our baths and basins are crafted exclusively from QUARRYCAST®. Being rich in Volcanic Limestone™, this unique composite is more than twice as strong as other materials.

- **Absolute safety**  
complete confidence
- **Rock solid**  
no flexing or creaking
- **Design freedom**  
creates beautiful forms

QUARRYCAST® has outperformed rival solid composites in strength tests conducted by independent material testing experts, Lucideon\*.

Mean modulus of rupture (MPa)

23.1MPa

Victoria + Albert Baths QUARRYCAST®

7MPa

Leading acrylic & composite bath brand (Avg)

Product Description	Overall Mean Modulus of Rupture (MPa)
Victoria + Albert QUARRYCAST®	23.1
Bath Brand 1	10.0
Bath Brand 2	9.7
Bath Brand 3	9.7
Bath Brand 4	9.6
Bath Brand 5	7.9
Bath Brand 6	5.1

All Victoria + Albert baths and basins are also IAPMO\*\* tested and approved – Impact tests are completed for all baths, from a 1kg ball bearing drop to a 136kg load test on the base and rim.

## Temperature

Unlike solid stone, QUARRYCAST® is warm to the touch, possessing superlative heat retention properties for a luxury bathing experience every time.

- **More comfortable**  
warm to the touch
- **More relaxing**  
water stays warmer for longer
- **More economical**  
less water top-up

QUARRYCAST® surpassed alternative materials in laboratory tests on bath water heat retention, conducted by independent material testing experts, Lucideon\*.

Temperature °C after 60 minutes:

QUARRYCAST®

Steel Enamel

Cast Iron

Bath	Change in temperature of bath water (°C)				
	0	5	15	60	120
QUARRYCAST®	0	0.2	0.8	3.5	6.0
Steel Enamel	0	0.6	1.6	5.2	7.9
Cast Iron	0	0.6	1.7	5.3	7.9

\* Lucideon is an independent, international materials technology company that focuses on innovation, sustainability and quality assurance of materials. They are a UKAS accredited testing laboratory (No. 0013) in the UK and have Lucideon-approved laboratories around the world.

\*\* IAPMO Research and Testing Laboratory provides full service, independent product testing at either their on-site laboratory (Ontario, USA) or at the manufacturer's facility.
